## DEDICATION

We, the seniors of Arthur Hill Technical High School, solemnly and gratefully dedicate our 1960 yearbook, **The Technician**, to

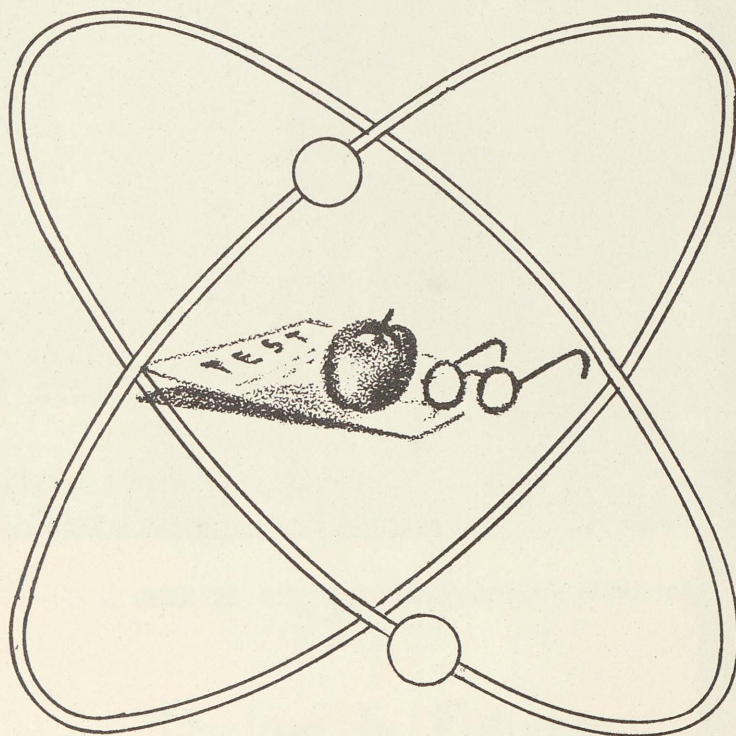

### Mrs. Arthur Hill

widow of the late Arthur Hill, who in the past years has substantially contributed to the many projects of our school. In the past year Mrs. Arthur Hill has unselfishly contributed five thousand five hundred dollars (\$5,500.00) to our school for the expansion of our library, which will insure our future progress.

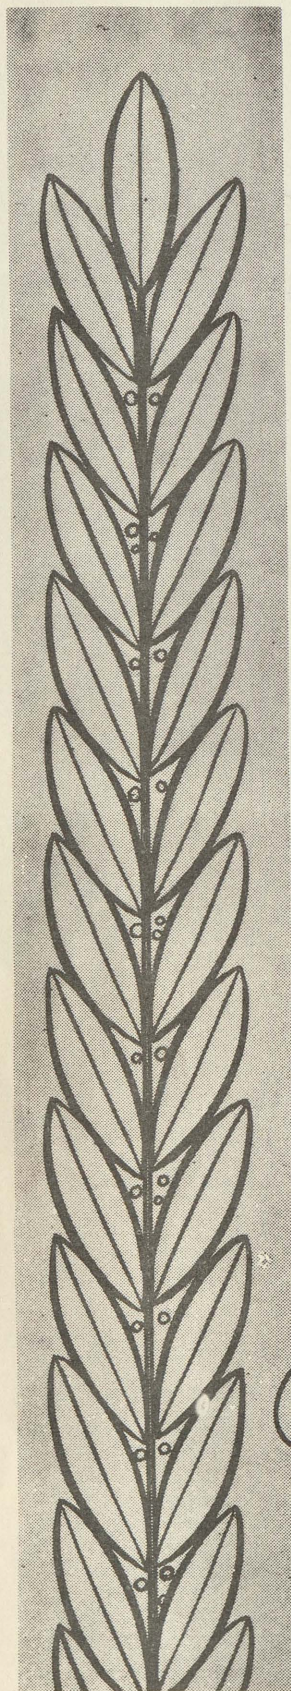

The senior class of 1960 realizes that through the eagerness of this woman to help in the furthering of education our school has been bettered. Therefore, we consider it a privilege to dedicate this book to you, Mrs. Arthur Hill.

## Dealing In Futures

The possibilities of this new age of technology, electronics and automation are unlimited for young people now enrolled in our high schools. They are unlimited from the standpoint of future employment either as technicians or as professional personnel.

As the future becomes more fabulous in its scope, the value of a well rounded education becomes more and more important, but the single most important thing will be that you as students adopt an earnest desire for an education to the limit of your abilities. When this is accomplished, many of the problems of our nation will be solved, and you can look to the future with confidence in your own ability and those of your fellow men.

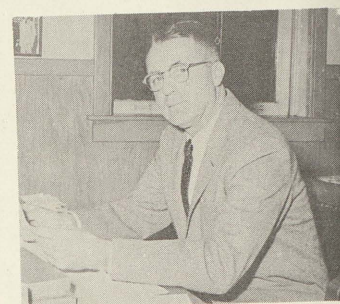

Board of Education President E. P. Stansbury, Superintendent C. C. Coulter, Vice-president W. A. Leesch, Secretary H. M. Karls, Treasurer H. M. Rockwell, Board Member R. J. Heagany.

## Technical High School's Place In The Future

The Saginaw Board of Education established the Arthur Hill Technical High School on July 1, 1957. Since that time this school has shown a steady, healthy growth both in number of students attending and the development of technical courses.

The Technical High School program will not remain static but will be expanded, revised and developed in order to continue to meet the needs of the community and the student body. The aim of Arthur Hill Technical High School is to develop in the young, ideas and responsibilities of intelligent citizenship as well as individual ability and character. The Technical High School student is also provided with a sound background in the Arts, Sciences and the practical arts.

With these objectives as its guide, the school will continue to grow and develop to better meet the requirements of an expanding, discriminating student body.

Minister: Happy is the man who finds wisdom, and the man who gets understanding.

Minister: So reach us to number our days that we may get a heart of wisdom.  
People: Let the favor of the Lord our God be upon us and establish thou the work of our hands upon us, yea, the work of our hands, establish thou it. (Prov.3:13, 14; Ps.90:12, 16, 17)

Thy love divine hath led us in the past,  
In this free land by thee our lot is cast:  
Be Thou our Ruler, Guardian, Guide and Stay,  
Thy word our law, Thy paths our chosen way.

From war's alarms, from deadly pestilence,

Thy true religion in our hearts increase,  
Thy bounteous goodness nourish us in peace.

Refresh Thy people on their toilsome way,  
Lead us from night to never-ending day;

When'er we hear that glorious word:  
Faith of our fathers, holy faith!  
We will be true to thee till death.

Faith of our fathers! God's great power  
Shall win all nations unto thee;  
And through the truth that comes from God  
Mankind shall then be truly free.  
Faith of our fathers, holy faith!  
We will be true to thee till death. Amen.

Faith of our fathers! we will love  
Both friend and foe in all our strife,  
And preach thee too, as love knows how  
By kindly words and virtuous life:  
Faith of our fathers, holy faith!  
We will be true to thee till death. Amen.

Amen.
